

NORTH SOUTH UNIVERSITY

Department of Electrical and Computer Engineering

Assignment – 01

Name : Joy Kumar Ghosh
Student ID : 2211424 0 42
Course No. : CSE 273
Course Title : Introduction to Theory of Computation
Section : 3
Date : 12 February 2025

5x Challenging DFA

DFA-1:

Binary string, odd number of '0' and odd number of '1'.

DFA-2:

Binary string, every 1 is followed by at least one '0', not containing '11'.

DFA-3:

Binary string, where number of '0' is a multiple of 3 and the number of '1' is odd.

DFA-4:

$$\Sigma = \{a, b\}$$

number of 'a' is even and ends with 'b'.

DFA-5:

$$\Sigma = \{a, b, c\}$$

L: start and ends with the same letter.

More practice from slide

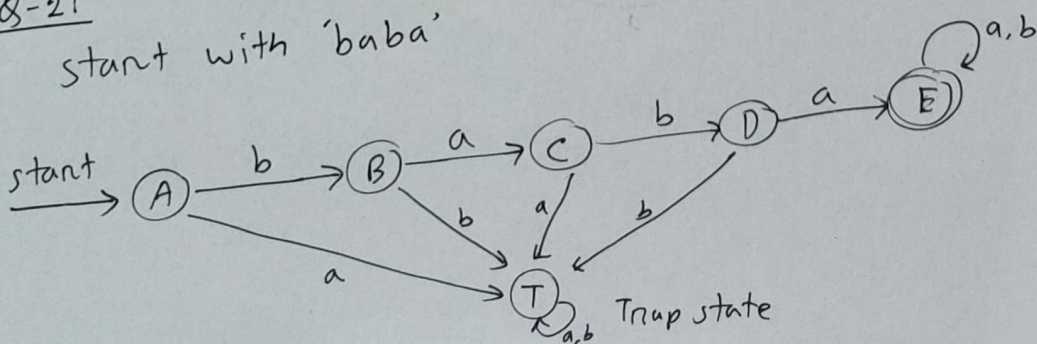

Slide Question - 1:

$$\Sigma = \{a, b\}$$

L: contains substring 'aba'

SB-21

start with 'baba'

SB-3:

end with 'abba'

SB-4:

contains exactly two 'b'.

SB-5:

Binary string divided by 2

SB-6:

Binary string, next to last symbol is 1

SB-7:

ending in 1 and not containing 00.
